DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of SEQ ID Nos: 12 and 39 in Paper No. 9 is acknowledged. Claim 10 is pending and under examination in this application.

Priority

Applicant's priority claim to provisional applications 60/071676 and 60/044886 is acknowledged. However, the claimed sequences do not appear in these applications and the priority date for this invention is thus that of 09/066745, 24 April 1998.

The holding of allowability of claim 10, of record in paper no. 10, is withdrawn in view of the following newly available art:

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 10 is rejected under 35 U.S.C. 102(e) as being anticipated by U.S. patent application 2003/0082677, priority date 6 October 1997.

2003/0082677 discloses SEQ ID NO: 4 (murine EDIRF 1), which is identical to instant SEQ ID NO: 12. See paragraph 0082, figure 2, and the sequence listing.

NO CLAIM IS ALLOWED.
